

New Holster: 391 PATENTED

**GOULD™
&GOODRICH**

Quickest holster on the market!

- Automatic retention when reholstering, even with hood open.
- You can release the hood and still have weapon retention. Or press thumb slide to release weapon and hood releases automatically, too. No wasted motion.
- Solid Kydex and stainless steel construction.
- Durable outer shell resists scuffing.
- Sueded liner helps protect your gun's finish.
- Works bare handed or with gloves on.

Anti-blade wing: No more awkward hood over the grip. Wing helps prevent attempts at the holster release points.

Belt loop fits belts up to 2-1/4".

Rear sight pocket and sight channel help protect your weapon's sights.

391 GUN RELEASE INSTRUCTIONS

You must read and understand all instructions, including the detailed warnings, safety and consumer information. See additional sheet for this information.

HOOD RELEASE LEVER

THUMBSLIDE

A

STEP 1 – PRESS HOOD RELEASE LEVER TO DISENGAGE HOOD.

STEP 2 – PRESS THUMBSLIDE BACK AND DOWN. PULL GUN IN UPWARD MOTION TO RELEASE GUN.

B

ALTERNATE RELEASING METHOD – PRESS THUMBSLIDE BACK AND DOWN. PULL GUN IN UPWARD MOTION. HOOD WILL DISENGAGE WHEN THUMBSLIDE IS PRESSED, EVEN IF HOOD RELEASE LEVER IS NOT PRESSED SEPARATELY.
